Holiday Lodges

2026 RANGE

Your Home Anywhere

Welcome to Swift

UK's No.1 brand for leisure vehicles

We are the UK's largest manufacturer of touring caravans, motorhomes and holiday homes. We've grown from simple foundations back in 1964, when our founder Ken Smith built his first touring caravan, to become the UK's number one leisure vehicle brand.

Our philosophy is to build leisure vehicles that are at the heart of your holiday, whether that be nestled in the countryside or by the sea, searching out active pursuits or simply enjoying a quieter pace of life. With a lifetime of memories waiting to be made, it's time to find your ultimate holiday home.

Five steps to lodge ownership

Owning a holiday lodge means more getaways and lasting memories, but knowing where to start can be daunting. That's why we've created a simple guide to help you choose the right home and park for your ideal escape.

Step 1

Is Lodge Ownership Right for You?

If you enjoy regular getaways, spending time with loved ones, or unwinding in peaceful surroundings, holiday lodge ownership could be ideal. It's perfect for walkers, cyclists, wildlife lovers - or anyone who values freedom and flexibility.

Step 2

Finding Your Dream Park

Choosing the right park is key. Consider what's important to you, whether that's nature, the seaside, or nearby attractions. Take your time exploring options on our destinations web page to find a location you'll love for years to come.

Step 3

Visiting the Parks

Once you've narrowed it down, visit a few parks to get a feel for the atmosphere, facilities, and surroundings. It's the best way to picture yourself there and find the perfect spot for your holiday lodge.

Step 4

Choosing Your Lodge

Swift holiday lodges combine smart design, practical features, and options for every lifestyle - from simple comfort to luxury touches. Choose the model that suits you best.

Step 5

What Happens Next?

Your park and dealer handle delivery and setup. At handover, they'll show you how everything works, so you can settle in and start enjoying your new getaway.

Expertly designed and crafted

Caroline Ward
Designer at Swift

We follow research insights and trends to keep ahead of the designs that appeal to both today's and tomorrow's customers, while also taking the time to understand what design aspects are important to you and your holiday lifestyle.

Today's trends involve a higher degree of ecological and environmental considerations, and at Swift, we share these values in our design and manufacturing decisions. We aim to replicate the natural world in both colour and material choices across all of our products.

Keeping on top of the trends through observation and research, we have seen a shift towards bolder accent colours as well as with colour palettes embracing warmer and softer earthy hues.

The Swift Difference

There's no better feeling than stepping into your holiday home or lodge for a relaxing getaway, so we do everything possible to make that feeling last for years to come.

We pride ourselves on applying superior manufacturing quality to everything we produce, we deliberately make design choices for the interiors to prioritise "liveability." This ensures that our products not only endure the test of time but also provide comfort and usability for a truly enjoyable experience.

And prioritising your peace of mind, we offer outstanding warranties, including a 3-year Manufacturer Supersure Warranty, 5-year Structural Warranty and 10-year Chassis Warranty.

Every Swift Lodge comes with the following as standard

Exclusive Duvalay™ mattresses

All beds feature indulgent Duvalay™ mattresses for the best nights' sleep

High thermal efficiency

Enjoy outstanding thermal efficiency, proven by environmental chamber testing and calculations

Bonded exterior walls

Sandwich construction walls provide a more rigid exterior, bonded with an insulation core

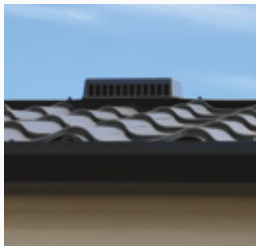

Integrated fridge freezers

Integrated fridge freezers are included across all ranges to maintain a sleek, uncluttered look

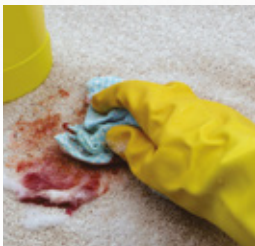

Double electric and USB (A&C) sockets

Stay connected with electrical and USB sockets in selected areas keeping everything charged

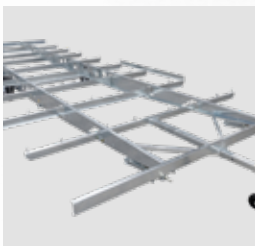

Externally vented extractors and windows

Keep your lodge fresh and dry with externally vented extractors, preventing damp and odours

Stain resistant carpets

With stain resistant carpets, there's no need to waste your precious holiday time scrubbing

Fully galvanised chassis

Protecting your holiday home, Swift's robust, fully galvanised chassis resist corrosion and is warrantied for 10 years

LED ceiling lights

Benefitting the environment and your pocket, bright, low energy LED lighting is included throughout

Integrated microwaves

Optimising valuable work surface space, all Swift Holiday Homes feature integrated microwaves (except Royan)

Why Swift?

As a leading manufacturer of holiday homes, touring caravans and motorhomes, we know just how to create the perfect retreat for your getaways. We apply this understanding in superb specifications, impeccable looks and creative space solutions, and work with a selection of the industry's most trusted suppliers.

As part of this manufacturing commitment, we defined the Swift Difference where we ensure that every holiday home and lodge that we produce meets our high quality and specification requirements.

1. Construction and thermal efficiency
Built to BS3632:2023 standards, Swift Holiday Lodges meets the NCC Energy Efficiency Rating Scheme for Residential Park Homes. This specification sets a higher standard for thermal efficiency through improvements in roof, wall and floor insulation.

2. Safety comes first
All our lodges and holiday homes are built in accordance with British and European standards and are audited against these build standards by the National Caravan Council (NCC).

3. Double Glazing
Heat-reflecting Thermaglas double glazing, which is Argon Filled and fitted as standard in our lodges.

4. Chassis
Swift only specify a fully galvanised chassis as standard. What's more, every Swift Lodge comes with a 10-year anti-corrosion warranty.

5. Roof trusses
For accuracy, strength and reliability, all Swift Lodges have prefabricated roof trusses. The resulting roof strength meets Grade B snow loading (capable of carrying half a metre of settled snow), while glass wool insulation provides excellent thermal efficiency.

6. Wall construction
Our bonded sandwich exterior wall construction gives greater structural strength. The walls are made in modules and are clad with CanExel. Each module consists of a robust timber frame, battened out and filled with insulation and a plywood inner skin.

7. Floor construction
In Swift Lodges, the thermal efficiency is enhanced with 100mm PIR (polyurethane) insulation below the flooring. Toronto has Structural Insulated Panel (SIPs) flooring, consisting of a timber frame with floorboards either side, which is injected with polyurethane, giving a greater level of insulation for all year round living.

3-Year Supersure Warranty
Your lodge has 3-year cover for all parts and fittings (other than the structural exterior).

- Freestanding furniture
- Kitchens
- Showers
- Sanitaryware
- Sockets and switches
- Interior doors and integrated furniture
- Gutter and fall pipes

5-Year Structural Warranty
Your lodge is protected by a 5-year Structural Warranty. Swift will repair or replace any structural defects, including issues with sealed seam joints or water ingress, reported within the warranty period. Coverage extends to key components, such as:

- External doors
- uPVC windows
- Roof, walls and ceilings
- Carpets
- Morco boilers

10-Year Chassis Warranty
Your lodge has a fully galvanised chassis with a 10-year Chassis Warranty, subject to maintenance. Swift will repair (or, at its option, replace) any defects with the chassis that come to light during this period, only for as long as the lodge belongs to its first owner.

All warranties start from the date an approved Swift Group dealer or park operator transfers the unit to its first owner and are subject to conditions, terms and exclusions. For full details see [swift-holiday-homes.co.uk/owners](https://www.swift-holiday-homes.co.uk/owners)

Toronto Lodge

The twin unit Toronto Lodge is available with two or three bedrooms and offers a choice of two interior schemes. The Urban scheme is designed to bring the best of chic industrial style to your home with blends of natural wood and dark clean finishes, while the Country Cottage scheme creates a cosy rural retreat with its neutral tones and natural oak accents. With its flexible layouts and luxury styling, there's a Toronto Lodge to suit every taste.

Discover our optional Eco extras

At Swift, we're committed to creating lodges that are not only stylish and comfortable, but also kinder to the planet. Across all Swift holiday lodges, you can upgrade with a range of innovative eco technologies that support more sustainable living - without compromising convenience or luxury.

Smart Comfort

Control your heating remotely with Smart Command. Pre-warm your holiday lodge or adjust the temperature on the go, all from your smart device.

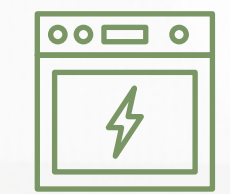

All-Electric Heating

A clean and efficient fully electric boiler and wet central heating system, eliminating the need for gas bottles.

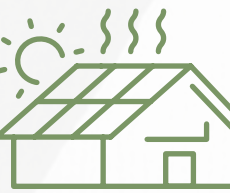

Smarter Water Heating

Using energy harvested through solar panels, the SunAmp water heater allows heat to be stored compactly and released gradually, even when the heat source is off. This stored energy can then heat water for over an hour when fully charged.

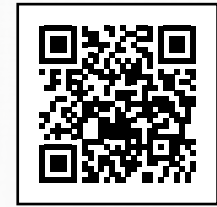

All-Electric Cooking

Modern, efficient and sustainable, our induction hobs and electric ovens reduce the need for gas bottles.

Solar Energy

Our Swift roof structures have the option to be solar ready, offering a renewable energy boost to reduce your reliance on the grid and lower your carbon footprint even further.

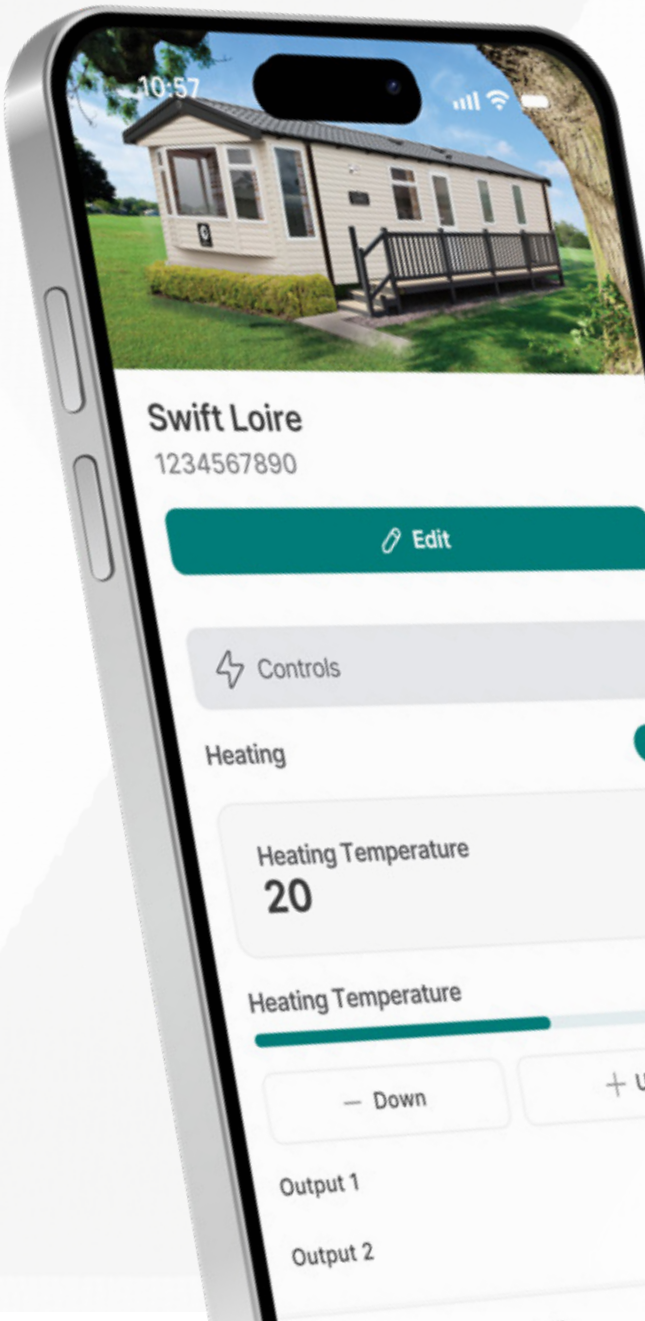

Scan the QR code to learn more about our Eco options

Introducing Smart Command

New for 2026, the Smart Command system is as an optional extra available across all Swift holiday lodge ranges. This eco-friendly system puts you in control of your onboard systems via a touchscreen panel and smartphone app. Use Bluetooth when nearby or your internet connection remotely to monitor power, temperature, humidity, and your holiday lodge's location. You can even control the heating for a warm welcome on colder days.

Heating

Activate whilst out exploring and enjoy the warmth when you get back. Forgot to turn your heating off when you left? No problem - just log into the app.

Controls

Control switch appliances such as lighting and heating with timers.

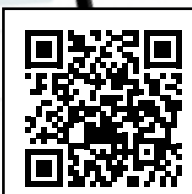

Energy

See overviews of live energy generation and usage.

Enviro

See information on external and internal temperatures as well as internal humidity levels

Scan the QR code to learn more about Smart Command.

Exterior finishes

Swift lodges are designed for long-lasting great looks. The exterior is clad in CanExcel high density wood composite cladding.

Only Swift approved partners sell approved Swift holiday homes and lodges

Swift wants to make sure your buying experience is the best it can be. When you buy from a Swift Approved Partner, you can rest assured that your lodge is fully supported by Swift Group and the supplying distributor.

The benefits of buying from a Swift Approved Partner include:

- Swift Group Approved Warranty
- Dealer access to Swift Connect aftersales support
- Approved spare parts
- Approved engineers
- Access to Swift Approved technical engineers
- Product on display at distributors
- Financial services to help with your purchase*

Find your nearest Swift Approved Partner from our list on the back of the brochure or the Swift Holiday Homes website, swiftholidayhomes.co.uk, and look out for the Swift Approved Partner signs in dealerships.
